Notes

1. In the case of Members who ceased or commenced as Members during 2014/15 (e.g. as a result of the January 2015 State election) the above report covers only the period served as a Member during the reporting period. The Allowance represents a pro-rata (based on period served) of the annual amount contained in the Members' Remuneration Handbook.
2. When a Member underspends in a previous period (beyond that allowable as a carry-over), future allowance payments are reduced by the underspent amount. The Member is then required to acquit the unspent allowance in the current reporting period.
3. When a Member underspends either their Electorate Allowance or Information and Communication Allowance, these savings may be used to offset over-expenditure in the other allowance up to a maximum of 20% of the annual allowance amount.
4. When a Member overspends the Allowance (after taking into account any applicable allowance off-sets), any over-expenditure is met personally by the Member.
5. For current Members, any reduction in future payments (where applicable) will be made from the next scheduled allowance payment (1 January 2016). For Members who ceased as Members during 2014/15, this amount is to be reimbursed by the former Member.

- e) while no such audit has been completed at this time for the 2014-15 acquittal period, should the results of the audit be material and require a variation to the above summary, a disclosure will be made in the future Report.
