Yesterday a group of us got together to celebrate democracy, at my inaugural Democracy Manifest lunch at the famous China Sea restaurant.

We're starting our fundraising early for my 2028 election campaign because our community deserves strong, values-driven representation.

I don't take money from developers or corporates, so every ticket, every donation, every show of support really counts. ❤️

Thank you to those who continue to stand alongside me.

For those who couldn't make it and would like to donate towards my 2028 campaign - you can make a tax deductible donation here:
